

Efficiently Communicate with Your Clients Using Text Messaging

Communicate with Your Clients via Their Cell Phones

Improve efficiency by communicating with clients via text messaging. Send a text message to taxpayer cell phones directly from our professional tax software.

You can:

- Notify taxpayers, either individually or as a group, that their checks are ready
- Save on costs by eliminating the need for staff dedicated to contacting customers
- Customize and track sent messages

The Benefits of Text Messaging

Utilizing Short Messaging Services (SMS), more commonly known as "text messaging," you are able to communicate with your taxpayer clients by sending a text message directly to their cell phones.

Two Options for the Text Messaging Feature:

- Standard text messaging feature that is available to all customers at no additional cost
- Enhanced text messaging with no limitations to the quantity or frequency of text messages at an additional cost
